SUMMARY

Second-year **Computer Science & Neuroscience** B.Sc. student at Bar-Ilan University, looking for a **student / intern** role in **Full-Stack**, **Frontend**, or **AI development**. I build and ship real projects on my own, web apps, Chrome extensions, and AI tools, and I am willing to grow and learn, taking on new challenges and picking up whatever stack or tool the job requires.

EDUCATION

B.Sc. Computer Science & Neuroscience | Bar-Ilan University | GPA: 86.16

Oct 2024 - present

Relevant coursework: **Data Structures** (93) · **OOP in Java** (92) · Computer Architecture (C/Assembly) · Neuroscience (94) · Calculus (100) · Linear Algebra (97) · Python Data Processing (98)

Academic Projects

Cognitive Background: Neuro-Data Analysis (team of 4) · [GitHub](#)

- Studied how a child's **socio-educational background** predicts **math and reasoning** ability, using a real OpenNeuro dataset of 56 subjects.
- Built the full **Python data pipeline**, from raw behavioral logs through to **hierarchical OLS regression**. The project sits between **neuroscience** and **data science**.

Tech: Python · Pandas · NumPy · SciPy · Matplotlib · Jupyter

Wolt Clone: Full-Stack Food-Delivery App (team of 2, private repo, available on request)

- Owned the **React web client** for a Wolt-style app: restaurant browsing, menu filtering, cart and checkout, and order tracking.
- Contributed across the **Express / MongoDB** backend, including **JWT auth** with protected and admin routes, and helped integrate a **C++ recommendation service** over TCP.

Tech: React 19 · Node.js · Express · MongoDB · JWT · React Native · Docker

PERSONAL PROJECTS

CLR: Culinary Logic Repository | [GitHub](#) (in active development)

- Building an **AI content pipeline** that ingests culinary content via Telegram (restaurants, recipes, products) and structures it into a searchable web app.

Tech: TypeScript · Python · Groq API · Telegram API · Vercel

Aside: AI Sidebar Chrome Extension | [site](#) [GitHub](#)

- Built a **Chrome extension** that adds a context-aware **AI sidebar** to any webpage, putting **6 AI providers** (Claude, Gemini, OpenAI, and more) behind one interface.
- Designed a **privacy-first** model: keys and chat history stay on-device, and page content is shared only when the user asks

Tech: JavaScript · Chrome MV3 · OOP design patterns · i18n / RTL

Wine Sommelier Telegram Bot | [GitHub](#)

- Built an **AI agent** on Telegram that manages a personal wine collection in a live Google Sheet: it reads label photos, adds and removes bottles, and infers intent from context before giving pairing and buying recommendations.
- Engineered a **resilient 4-model fallback** system after identifying reliability gaps in production.

Tech: Python · Google Gemini API · Telegram API · Google Sheets · Vercel

Personal Portfolio | [live site](#) [GitHub](#)

- Built a **portfolio site** with an embedded endless-runner **game engine** written from scratch in **TypeScript OOP**.

Tech: React 18 · TypeScript · Vite · Tailwind · Framer Motion

MILITARY SERVICE

IDF Combat Medic & Medical Coordinator | Gaza Division

2021 - 2026 (active reservist)

- Leadership under pressure:** led a medical unit that scaled from 12 to **30+ personnel** during high-intensity operations.
- Ownership & reliability:** ran real-time coordination and logistics in a divisional war room across multiple units.
- Problem-solving in real time:** managed high-stakes triage and evacuation during mass-casualty events.

What it brings to a team: values, loyalty, endurance for long efforts, and calm decision-making under pressure.

SKILLS

Languages: Java 17, Python, C, Assembly

Data & Analysis: NumPy, Pandas, Matplotlib, Jupyter

Tools & Platforms: Git/GitHub, Chrome Extensions API (MV3), Render, Vercel, GitHub Pages

AI-Assisted Dev & MCP: Architecture, implementation, debugging, and code review.

Certifications: [Claude Code in Action](#) | [Claude Code 101](#) | [Claude 101](#) | [AI Fluency: Framework & Foundations](#)

LEADERSHIP & ADDITIONAL

StandWithUs Fellowship(2025:)Selected for competitive Israel advocacy and leadership fellowship; trained in public speaking, media engagement, and cross-cultural communication

Languages: Hebrew (native), English (professional proficiency)
